#### Question 2

1/1 point (graded)

According to this Module's reading assignment, the author defines a data scientist as someone who uses complicated machine learning to build predictive models, publishes their research results in online blogs, and works from home.

False  Answer Correct: Correct. This is close to how to Dr. Vincent Granville defines a data scientist but not the author.  Submit You have used 1 of 1 attempt  Question 3  // point (graded) According to this Module's reading assignment, the author defines data science as the art of uncovering the idden secrets in data.  True  False  Answer Correct: Correct. The author defines data science as what data scientists do.  Submit You have used 1 of 1 attempt  Question 4  // point (graded) According to this Module's reading assignment, what is admirable about Dr. Patil's definition of a data scientist?  His definition limits data science to activities involving machine learning.  His definition excludes statistics.  His definition is about weaving strong narratives into analytics.
Correct: Correct. This is close to how to Dr. Vincent Granville defines a data scientist but not the author.  Submit You have used 1 of 1 attempt  Question 3  // point (graded) According to this Module's reading assignment, the author defines data science as the art of uncovering the hidden secrets in data.  True  False  Answer Correct: Correct. The author defines data science as what data scientists do.  Submit You have used 1 of 1 attempt  Question 4  // point (graded) According to this Module's reading assignment, what is admirable about Dr. Patil's definition of a data scientist?  His definition is inclusive of individuals from various academic backgrounds and training.  His definition limits data science to activities involving machine learning.  His definition is about weaving strong narratives into analytics.
Correct: Correct. This is close to how to Dr. Vincent Granville defines a data scientist but not the author.  Submit
Question 3 // point (graded) // coording to this Module's reading assignment, the author defines data science as the art of uncovering the idden secrets in data.    True
Question 3 // point (graded) /
A point (graded) A poin
// point (graded) // point (gr
According to this Module's reading assignment, the author defines data science as the art of uncovering the aidden secrets in data.  True  False  Answer Correct: Correct. The author defines data science as what data scientists do.  Submit  You have used 1 of 1 attempt  Question 4  It point (graded) According to this Module's reading assignment, what is admirable about Dr. Patil's definition of a data scientist?  His definition is inclusive of individuals from various academic backgrounds and training.  His definition excludes statistics.  His definition is about weaving strong narratives into analytics.
True  False  Inswer  Correct: Correct. The author defines data science as what data scientists do.  Submit  You have used 1 of 1 attempt  Question 4  // point (graded)  According to this Module's reading assignment, what is admirable about Dr. Patil's definition of a data scientist?  His definition is inclusive of individuals from various academic backgrounds and training.  His definition limits data science to activities involving machine learning.  His definition excludes statistics.  His definition is about weaving strong narratives into analytics.
True ● False Inswer Forrect: Correct. The author defines data science as what data scientists do. Submit You have used 1 of 1 attempt Question 4 In point (graded) According to this Module's reading assignment, what is admirable about Dr. Patil's definition of a data scientist? ● His definition is inclusive of individuals from various academic backgrounds and training. His definition limits data science to activities involving machine learning. His definition excludes statistics. His definition is about weaving strong narratives into analytics. • Otherit
♠ False Answer Correct: Correct. The author defines data science as what data scientists do. Submit You have used 1 of 1 attempt Question 4 Answer Correct: Correct. The author defines data science as what data scientists do. Question 4 Answer Correct: Correct. The author defines data science as what data scientists do. Output Whistory Correction of the Author
An point (graded) Cocording to this Module's reading assignment, what is admirable about Dr. Patil's definition of a data scientist?  His definition limits data science to activities involving machine learning.  His definition excludes statistics.  His definition is about weaving strong narratives into analytics.
Submit You have used 1 of 1 attempt  Question 4  If point (graded) according to this Module's reading assignment, what is admirable about Dr. Patil's definition of a data scientist?  His definition is inclusive of individuals from various academic backgrounds and training.  His definition limits data science to activities involving machine learning.  His definition excludes statistics.  His definition is about weaving strong narratives into analytics.
Submit You have used 1 of 1 attempt  Question 4  (1 point (graded) ccording to this Module's reading assignment, what is admirable about Dr. Patil's definition of a data scientist?  (a) His definition is inclusive of individuals from various academic backgrounds and training.  (b) His definition limits data science to activities involving machine learning.  (c) His definition excludes statistics.  (c) His definition is about weaving strong narratives into analytics.
Submit  You have used 1 of 1 attempt  Question 4  //1 point (graded) According to this Module's reading assignment, what is admirable about Dr. Patil's definition of a data scientist?  His definition is inclusive of individuals from various academic backgrounds and training.  His definition limits data science to activities involving machine learning.  His definition excludes statistics.  His definition is about weaving strong narratives into analytics.
Question 4 // point (graded) According to this Module's reading assignment, what is admirable about Dr. Patil's definition of a data scientist?  His definition is inclusive of individuals from various academic backgrounds and training.  His definition limits data science to activities involving machine learning.  His definition excludes statistics.  His definition is about weaving strong narratives into analytics.
// point (graded) According to this Module's reading assignment, what is admirable about Dr. Patil's definition of a data scientist?
